Stafford Creek Corrections Center – July 2010 Vol 2/No 8

Here we go again - another "litter"!

ADOPTED!

LILY: a 1 ½ year old "beautiful, sweet, perfect little Beagle" – who, with that kudos, has already found a home! Lily came from a drug home, whose previous owner finally cleaned up enough to realize she was neglecting the dog. She is gaining confidence daily with all the affection she receives. The new owners recently lost their Beagle, so she will fit in perfectly.

BUDDY: looks to be a purebred Yellow Lab, but could be a Lab/ Golden Retriever mix. He is a *very young* 5 years old, is good on leash, and loves to cuddle on the couch next to you. He is a loyal, soft, companion. Buddy's owner moved to Oklahoma, and did not take him. He is a little depressed right now, and is looking for the happiness of be part of a family again. (NBPAWS)

ADOPTED!

MERLIN: a sweet, easy going male Lab mix who will be 10 months old when graduating the program. Merlin gets along with everyone, human or dog, and is very laid back for a pup. He is extremely attentive to humans and will make an absolutely excellent companion for a family or single person. Merlin has very beautiful and unique look about him. He was a stray from Copalis.

They say a dog is man's best friend. I don't believe that. How many of your friends have you neutered? ~Larry Reeb

TIGGER: is a loveable, approximately 8 month old, male Lab mix pup that enjoys playing with people and other dogs. He will be about a year old when he finishes the program, but for so young, he settles down well when playtime is done. He was one of four pups found at Ruby Beach. Tigger was adopted in to a home, but the person decided to move to Hawaii and chose not to take him. He is waiting for the special person or family to take him in.

Four More.....

ADOPTED!

FLETCHER: is a handsome hunk of a Black Lab/Mastiff mix. He is beautiful both inside with his sweetness, and outside with his looks. Fletcher is approximately 3 years old, and is coming along great in his training. Fletcher was a stray who went to the Kitsap County Humane Society. He loves chasing balls, plays fetch very well, and has the ability to destroy whatever blanket is placed in his kennel! Fletcher is curious and likes to watch what the other dogs are doing. (KITSAP COUNTY DOG)

COCOA: is a very TALL and active young female German Shorthair Pointer. She has a stunning body line and beautiful markings. Cocoa previously had some socialization training at OCC, and is now with us for a bit more "rounded" training. She has been placed with a younger offender handler who has a natural knack with dogs, and who can keep up with her energy! Her new owner will need to do the same. Cocoa is very "birdy", preferring to stop whatever activity to follow them across sky with great longing. (WHATCOM COUNTY DOG)

COOKIE: is a friendly young Plott Hound, who just had a litter of pups, and since has been spayed. Cookie has a beautiful, shiny multi-colored coat, which the picture doesn't do justice. Although we don't know Cookie's background, clues tell us that it wasn't very good. She looks to have neglect issues in the past, but with the love she is getting now, she is blossoming and learning self-confidence. (SO PACIFIC COUNTY DOG)

SAMMIE: is a 5 year old Australian Shepherd female, with maybe a little Border Collie mix. Although Sammie's previous owner decided not to keep her, she has an absolute love for those helping her and a strong belief that humans were placed on this earth for her happiness. Sammie is thriving under the constant attention, good food, and daily grooming she is receiving. She was shaved down due to the unmanageable mats all over her body - the mats even tore her skin in several places. Sammie has tolerated toenail clipping, combing, bathing, and teeth cleaning...this dog is VERY special and will be a great addition to any home! (SO PACIFIC COUNTY DOG)

Dogs that chase cars have learned that cars run away. This behavior is reinforced each time he chases one away!

Check it out - If you know of anyone hankering after a pup, NBPaws has 12 just waiting to be adopted. 7 appear to be Black Lab & 5 are **BIG BEAUTIFUL** Newfie/Retriever mixes. No photos just yet, but they are beauts! They are going to be **HUGE**.
